

USMAN JA'AFAR SHEHU

Full-Stack Software Developer

Abuja, Nigeria | +2347038546788 | jaafarusman67@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Full-stack software developer with hands-on experience across React, React Native, and Node.js, including building and maintaining live production systems used by real customers. Comfortable working inside existing codebases, managing Git/GitHub workflows, integrating REST APIs and databases, and shipping features from development through cloud deployment. Founder of a technology practice that has delivered multiple web and mobile applications end-to-end, from architecture through testing and release. Brings a research-trained eye for documentation, data verification, and dependable system design, with active certifications cybersecurity, and applied AI.

EDUCATION

B.Sc. Software Engineering 2019 – 2024

Al-Qalam University Katsina, Nigeria - CGPA: 4.18/5.0 (Upper Second Class Honours)

- Relevant coursework: Artificial Intelligence, Software Architecture, Database Systems, Data Structures & Algorithms, Network Security

TECHNICAL SKILLS

Frontend: React, React Native (Expo), JavaScript, HTML5, CSS3, Tailwind CSS, responsive UI development

Backend & Data: Node.js, Express, MongoDB / MongoDB Atlas, MySQL, Firebase, REST API design & integration, authentication

Tools & Deployment: Git & GitHub (branching, pull requests, merge-conflict resolution), Render, Firebase Hosting, Cloudinary, EAS Build, Vite

Other Languages: Java, Python (data science & ML)

Practices: Debugging & testing, technical documentation, Agile/SDLC, cross-functional collaboration, data quality & verification

PROFESSIONAL EXPERIENCE

Software Developer Jan – May 2026

Techsion, Nigeria

- Contributed to full-stack software development projects within a professional engineering team, applying React and Node.js to production codebases
- Worked within an existing codebase built by another team, resolving bugs and shipping features through to deployment
- Collaborated cross-functionally within an Agile team structure to plan, estimate, and deliver iterative releases

Founder & Lead Developer 2023 – Present

BeeWave Tech Solutions, Zaria, Nigeria

- Designed, built, and deployed a live e-commerce platform (Firebase + Cloudinary) serving real customers since launch
- Led a multi-app development sprint delivering five React Native/Expo applications on a shared Node.js + Express + MongoDB Atlas backend, each shipped as an installable Android build

- Own the full development lifecycle for all products - architecture, coding, debugging, deployment, and documentation
- Manage version control and collaborative workflows via Git/GitHub across all repositories, including branching strategy and merge-conflict resolution

Full-Stack Developer - SIWES Industrial Attachment

2022 – 2023

Iya Abubakar Institute of ICT (ABU Zaria) & Nigerian Institute of Transport Technology (NITT)

- Coordinated the full SDLC for the NITT Attendance System, from requirements through deployment
- Reduced bug reports by 30% and improved database efficiency by 35% through structured testing and query optimization

Academic Research & Development Specialist

2024 – Present

Emirates Web Enterprises, Kaduna, Nigeria

- Lead research and innovation projects bridging technology and education; support technical documentation and publishing workflows

SELECTED PROJECTS

BeeWave Store - Live E-Commerce Platform

2023 – Present

Firebase, Cloudinary, JavaScript

- Built and maintain a live storefront for computer accessories, handling product data, media, and hosting end-to-end

BeeWave App Suite

2023 – Present

React Native (Expo), Node.js, Express, MongoDB Atlas, Render

- Shipped five distinct mobile apps (Weather, Daily Spark, Expense Tracker, PoultryTrackPro, MarketNG) sharing one backend, each with custom branding and distributed as installable APKs

Faculty Complaint & Maintenance Management System

2023

Java, ReactJS, JavaScript, MySQL

- Led a team building a full-stack complaint-management system with photo-upload fault reporting and admin task assignment, cutting resolution response time by 40%

PoultryTrackPro - AI-Assisted Mobile Farm Management System

2023 – 2024

ReactJS, MongoDB

- Built a mobile application for real-time, AI-assisted record management; improved record-keeping accuracy by 25% for users with no prior data-management training
- Findings on user trust in AI-generated outputs published and presented at an international peer-reviewed conference

Developer Portfolio Site

2024

React, Vite, Tailwind CSS

- Built as a component-based engineering project - not a static template - to showcase shipped work to recruiters and clients

CERTIFICATIONS

- Cybersecurity Certificate - University of the People / IBM SkillsBuild (In Progress, 2026)

- 3MTT Cybersecurity Fellowship - Nigeria Federal Ministry of Communications, Innovation & Digital Economy
- Cybersecurity & Ethical Hacking - Cisco / Edureka
- Data Science Professional Course - WorldQuant University
- Career Essentials in Generative AI - Microsoft & LinkedIn
- Project Management Essentials - Management and Strategy Institute

LEADERSHIP & AWARDS

- Financial Secretary, then Auditor General - Undergraduate Student Association, Al-Qalam University
- SDGs Community Development Service - National Youth Service Corps (NYSC)
- Best Graduating Student & Proprietor's Awardee - Prince and Princess International Academy

REFEREES

- Dr. Shamsuddeen Jumande Mohammed
Ahmadu Bello University, Zaria | mjumande@abu.edu.ng | 2347034506317
- Mrs. Barira Hamisu Al-Qalam University, Katsina | barirahamisu@auk.edu.ng | 2348034239796
